

Novel Transcriptional Regulators in CRC TAM
(CRC TAM vs UC Myeloids, Pseudobulk DEG)

Panel A: CRC TAM vs UC Myeloid pseudobulk DEG (scVI batch-corrected, Wilcoxon, BH-FDR) | *** FDR<10⁻²⁰ ** FDR<10⁻¹⁰ * FDR<0.001 [*] mechanistically novel, CRC-specific
Panel B: decoupleR-ULM TF activity (CollectR1 network); DActivity = TAM mean - Classical_Mono mean | Green labels: lipid metabolism TFs supporting OLR1+ TAM model
