

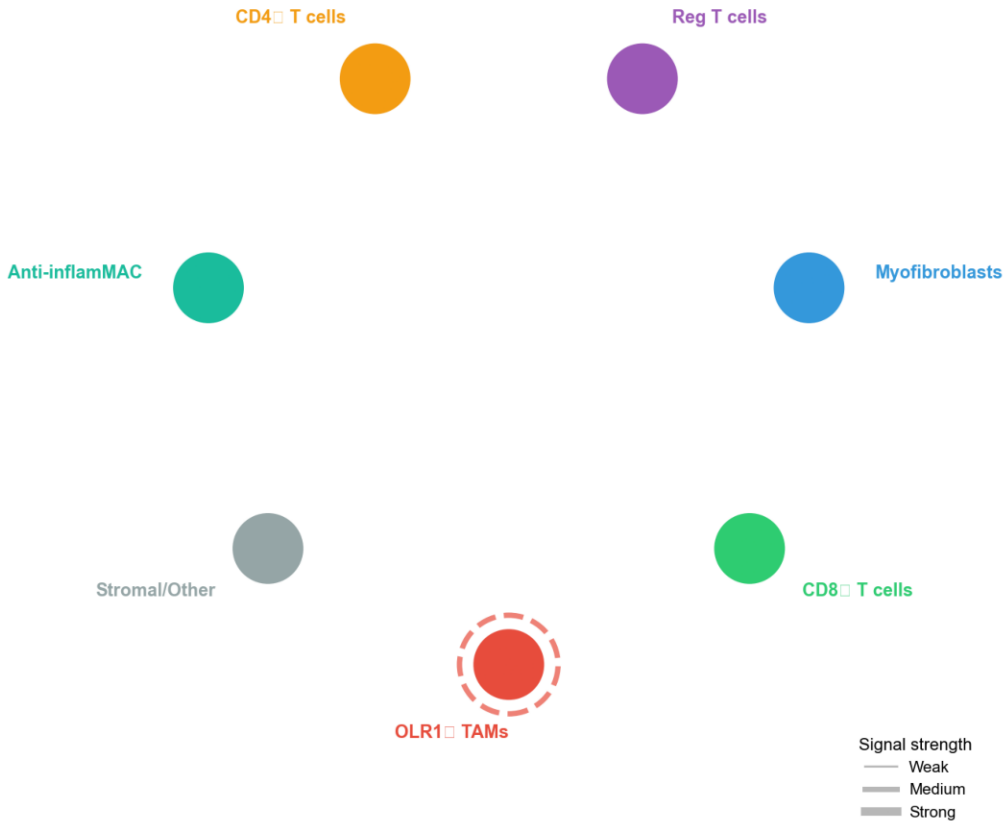

Figure 4 — OLR1^{hi} TAMs Induce Immune Evasion: Communication & Metabolic Mechanisms

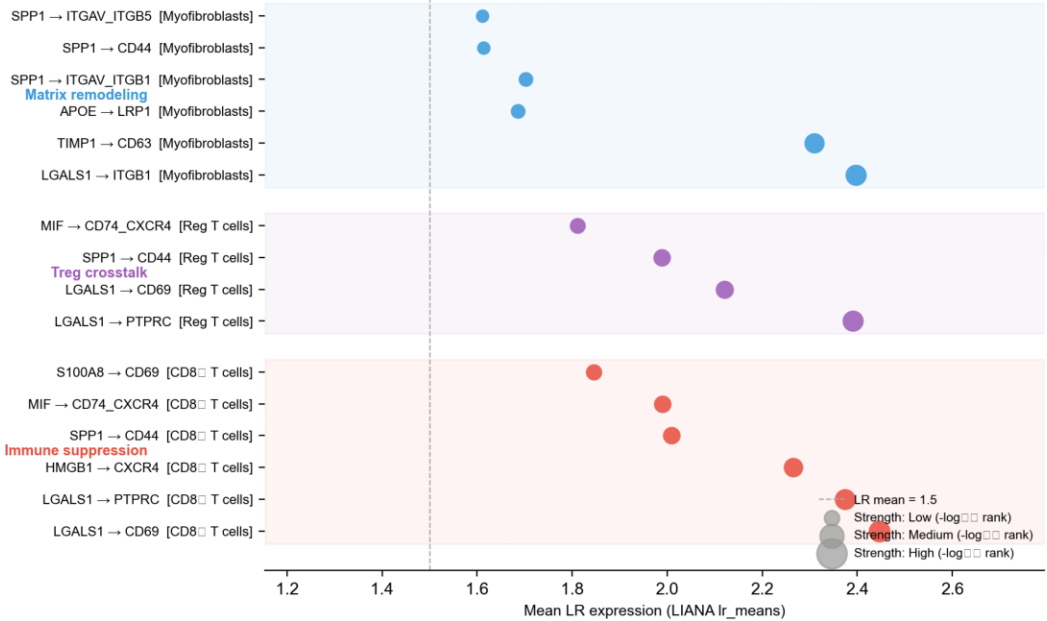

A

A Cell-Cell Communication Network (GSE144735 Border)

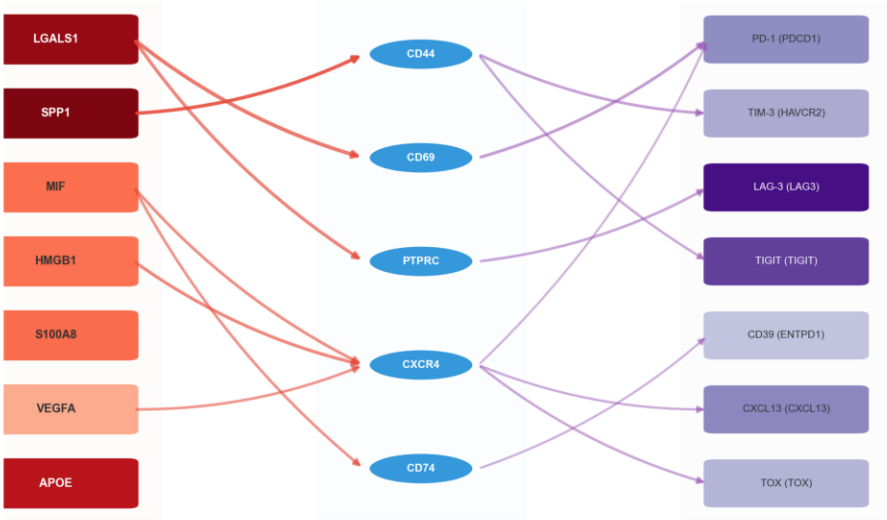

B

B Key Ligand-Receptor Pairs from OLR1^{hi} TAMs (GSE144735 Border region, SPP1+B as sender)

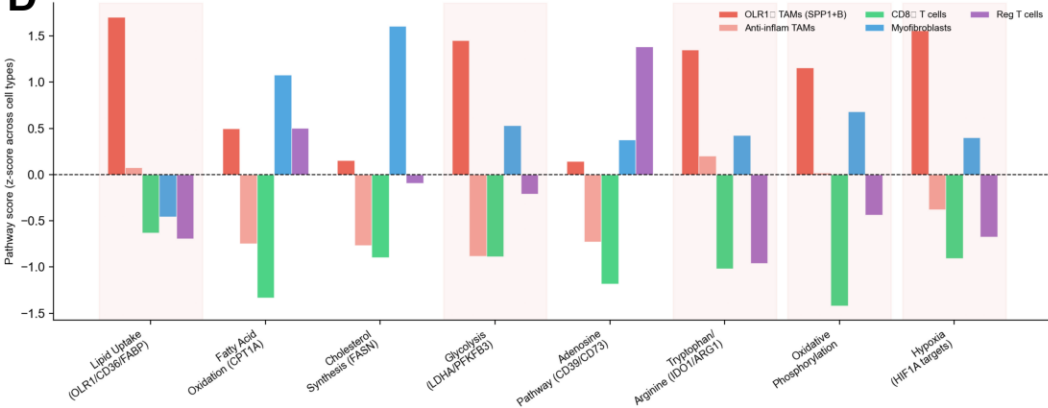

C

C MiceNet-like Ligand-Receptor-Target Linkage Map: OLR1^{hi} TAMs suppress CD8^{hi} T cell function via multi-ligand signaling

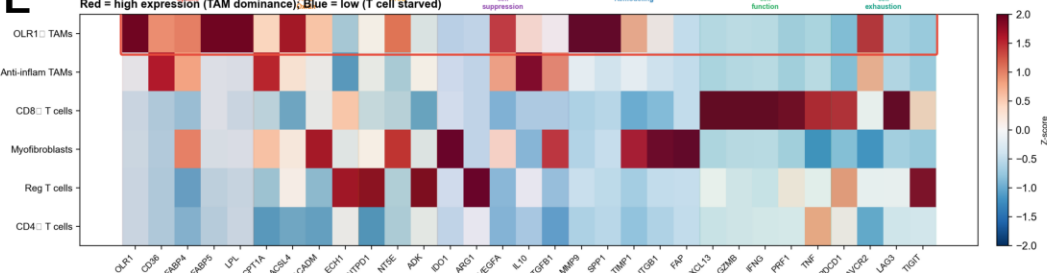

D

D Metabolic Pathway Activity by Cell Type (GSE144735)

E

E Metabolic Competition Map: OLR1^{hi} TAMs vs CD8^{hi} T cells (GSE144735)

F

F Pathway Enrichment in OLR1^{hi} TAMs: MMRp vs MMRd (GSE178341 Macro subpopulation, Mann-Whitney U test)
